SUMMARY

Experienced Flutter developer with 3.5 years of expertise in developing mobile applications. Skilled in collaborating with cross-functional teams to achieve project goals and deliver exceptional results. Passionate about incorporating new techniques and innovative design principles to create stunning UI/UX experiences. Committed to delivering top-quality applications that meet and exceed client expectations.

MY APPLICATIONS

ProFinder

<https://gitlab.com/mdshwin555/ProFinder>

A digital application that brings together certified experts from around the world to provide their expertise to those who need it. It allows users to connect with available experts in various fields such as medicine, professions, psychological and family, in addition to business and management consulting.

ChatGPT

<https://gitlab.com/mdshwin555/ChatGPT>

My app brings an innovative way for users to chat using cutting edge AI technology, making conversations natural and engaging. Without the need to enter a phone number, the app provides an exciting and convenient chatting experience.

MY PATIENTS

<https://gitlab.com/mdshwin555/MY-PATIENTS>

"MY PATIENTS" application is an effective tool for doctors to easily manage patients. Lets create a page for each patient containing his data and medical history. Patient data can be modified or deleted, and a PDF file can be created. Reminds doctors of important patient appointments and operations with powerful notifications.

IMDB TV

https://gitlab.com/mdshwin555/my_imdb

My app makes watching movies and series easier and more fun! Enjoy your favorite movies and series from IMDB quickly and easily, with quick access to movie info, user ratings, and critics. No registration or subscription required, you can create a Watch Later list and share it with your friends.

karagi

https://gitlab.com/mdshwin555/karagi_syria

A simple and easy to use app for booking and tracking flights with exclusive offers, instant notifications and great customer support. Great user experience and attractive design. Enjoy fun trips and unforgettable experiences. Download the app now and enjoy all the features!

workout AI

https://gitlab.com/mdshwin555/workout_ai

Custom workouts, diet, expert guidance, inspiring challenges, social community, GPT personal assistant, progress and tracking to improve health and fitness.

Fekratec

<https://gitlab.com/mdshwin555/fekratec>

Custom workouts, diet, expert guidance, inspiring challenges, social community, GPT personal assistant, progress and tracking to improve health and fitness.
